

MINI DE KERSAINT

Mini is a landscape artist and works from her studio located in the heart of the Pewsey Vale. She paints predominantly in acrylics, which suits her style of working.

Sketching, mark making and photography form the groundwork of her studies and from these initial ideas she works up into final pieces of artwork.

On occasions she uses mixed media in her work, experimenting with images, textures and colours.

Mini studied at Epsom School of Art & Design and went on to have a career in Graphic Design. After many years of working in Advertising Agencies and Design Consultants in London and Surrey, she took a career break to start a family.

As her daughters grew up, Mini found a renewed interest in drawing and painting. With the encouragement of family, she found confidence in her painting and finds herself where she is now, thoroughly enjoying her time in my studio and being creative!

In 2021 Mini became part of Marlborough Open Studios and have opened her studio up to visitors for the last four years during July.

For 2025 she was an Associate Member.

In 2023 she started running 'Painting with Acrylics' workshops from the Studio at Overton Framing in Manton, Marlborough.
